“A Resilience Hub established on the principals of equity and inclusion, focused on building intergenerational resilience and creating sustainability. Services and programs are embedded in community and environmental stewardship by providing opportunities for enrichment, education and exposure to enable resiliency and sustained successes. The site will transform to become an innovative community engagement center equipped to provide resources in steady, disruptive and recovery states.”
RESILIENT PROGRAMMING
Offering additional services and programs that build relationships, promote community preparedness, and improve residents' health and well-being.

RESILIENT COMMUNICATIONS
Ensuring the ability to communicate within and outside the service area year-around and especially during disruptions and throughout recovery.

RESILIENT BUILDINGS AND LANDSCAPE
Strengthening the resilience of the facility to ensure that it meets operational goals in all conditions.

RESILIENT POWER
Ensuring reliable backup power to the facility during a hazard while also improving the cost-effectiveness and sustainability of operations in all three operating modes.

RESILIENT OPERATIONS
Ensuring personnel and processes are in place to operate the facility in all three modes.

MODE: EVERYDAY

- Workforce development
- On-site health and wellness education and services
- Food literacy programming
- Financial literacy and vocational readiness
- Art shows and pop-up vendors (food stands)

- Wifi
- All-community events
- Broadcasting studio for podcasting and videocasting

- Industrial kitchen
- Computer center
- Green room with vertical farming

- Solar + Storage
- Solar installation training
- Community solar

- ADA+ compliant to ensure physical accessibility, and integration of closed caption services and braille
- Community-codevelopment systems and structure in place

RATINGS
No two Resilience Hubs are alike. Each community will have different goals and priorities for all three resilience modes. The degree to which they meet their goals can be described as Baseline, Optional, and Ideal.

Baseline sites meet the minimum criteria for being a Resilience Hub and provide community benefit in all three resilience modes. Optional Resilience Hubs incorporate a range of expanded services and resilience-enhancing retrofits. Ideal Resilience Hubs meet ambitious goals that provide community benefits year-round.
**DISRUPTION**

- Provision of critical services and emergency readiness kits
- Training for community emergency readiness

- Emergency communication system
- Emergency radio
- Thursday resilience series with rotating themes (climate and environmental stewardship, flooding and mitigation, disaster and recovery, workforce development)

- Structural floodproofing
- Residential floodproofing support

- Power redundancy via battery backup system

**RECOVERY**

- Training for community emergency recovery
- Mental health programming

- Providing critical services and emergency readiness kits

- Emergency communication system
- Emergency radio
- Thursday resilience series with rotating themes (climate and environmental stewardship, flooding and mitigation, disaster and recovery, workforce development)

- Structural floodproofing
- Residential floodproofing support

- Power redundancy via battery backup system
